

## CREATION MINISTRIES IN JAPAN

# Genesis Japan

President Emeritus  
Dr. Masami Usami

President  
Rev. Minoru Usami

Vice-President  
Rev. Minoru Usami

This is what God the LORD says— he who created the heavens and stretched them out, who spread out the earth and all that comes out of it, who gives breath to its people, and life to those who walk on it:

"I, the LORD, have called you to demonstrate my righteousness. I will take you by the hand and guard you, and I will give you to my people, Israel, as a symbol of my covenant with them. And you will be a light to guide the nations. Isaiah 42:5,6

### What is Genesis Japan?

Genesis Japan is a creationism organization in Japan. Our ministry is to glorify God through creation seminars, scientist's network, and publications. We are located about 100km North of Tokyo.

### Brief History of Creation ministries in Japan?

Dr. Masami Usami is the pioneer of creation ministry in Japan. He started organizations "Bible and Science" in 1978, "Creation Research Japan" in 1986, and "Genesis Japan" in 2008 with Rev. Minoru Usami.

When Dr. Masami Usami started "Bible and Science", a theistic evolutionist, professor at a national university, sent letters to Churches in Japan writing "Creationism is a heretical idea and unbiblical" So, starting of creation movement in Japan was very

difficult. But there were supporters of this ministry also.

Creationism were gradually accepted in Churches, there are many scientists have chance to give presentation at Churches.

### Museum Vision

We have a vision to build a creation museum as the same size of creation museum of AiG in USA near future. Japan is suffered by the earthquake on March 11, 2011. Many people in Asia sent materials to Japan to help those who suffered. We thank Asian countries very much about this. Those suffered area has been gradually rebuilded because of these help. We now think about spiritual help of Japanese people by exhibiting creationism materials at the museum. We are expecting asian people to visit us also, and we plan to explain our exhibition in Korean, Chinese, English as long as Japanese.

### Projects of year 2012
